

## INEX 3048 and 3048R

INEX Model 3048R

### **Simple, Reliable, Industrial Construction & Features**

Cutaway  
shown

### **BNP BLAST GUN**

The BNP Blast Gun sets the industry standards for performance, versatility, and durability. The pistol-grip design reduces operator fatigue and increases productivity.

***Economical blast cabinets for auto shops, art studios, maintenance & machine shops, and light industrial applications***

### **SAFETY & COMFORT**

- Eliminates the hazards of open blasting.
- Full-length neoprene-on-fabric gloves protect hands and arms better than the cheap vinyl gloves on hobbyist cabinets.
- Pedal-activated blast gun eliminates moving parts from inside the enclosure (no more jammed blast gun triggers).
- Dust collector traps blast dust for safe disposal (stop scooping dust and spent media from the blast hopper).
- Shatter-resistant glass window gives distortion-free view.

### **PRODUCTIVITY**

- Large, freestanding enclosure – with full doors on both sides – holds bigger parts than any bench-top model.
- 1/2-inch air line and efficient air filter let you use up to 3/8-inch nozzles to make fast work of most blast projects.
- Outside-mounted light illuminates work chamber.
- 300-cfm reclaimer (on 3048R) continuously separates good abrasive from dust and fines.
- Rugged 14-gauge steel construction.
- Pressure regulator and gauge.

### **CHOOSE FROM TWO MODELS**

The INEX 3048R delivers the higher-production features growing businesses need: continuous media cleaning and recycling, dust bag (for limited blasting, less than an hour per day) or optional 300-cfm dry filter dust collector (for extended blasting). The base model INEX 3048 comes without the media reclaimer, but does include a light-duty 115-cfm dust collector – perfect for occasional use at home and in small shops.

## INEX 3048R COMPLETE SYSTEM

**INEX 3048R** with double-walled dust bag

### CABINET

**Working Chamber Size**      **Door Opening**

45-3/4" wide (1162 mm)  
27-3/4" deep (704 mm)  
28" high (711 mm)

**Window Size** (safety glass)

19 1/2" wide (495 mm)  
12 1/2" high (317 mm)

Door interlock system on 3048R conforms to U.S. government regulations

### DUST COLLECTORS

**INEX 3048** comes with 115 cfm canister vacuum dust collector with cartridge filter, 15 gallon capacity, 115 volt, 60 Hz, AC. Filter area: 10 ft<sup>2</sup>.

**INEX 3048R** with reclaimer offers a choice of dust collection systems. Select dust bag, double-walled with zippered clean-out, or dry filter, 300 cfm with 15 tubular cotton-sateen tubes. Filter area: 5 ft<sup>2</sup> per tube; 75 ft<sup>2</sup>.

## INEX 3048R MEDIA RECLAIMER

### The Heart of INEX's Blasting System

The heart of the INEX 3048R system, our exclusive media reclaimer, efficiently separates dust and debris from reusable media. The removable debris screen captures oversize foreign materials. The optional externally adjustable vortex tube effectively separates dust from fine, lightweight media. The INEX's reclaimer handles all nonmetallic blast media with ease.

### Electrical

**300 cfm** (8,5 m<sup>3</sup>/m) 1/2HP, 115V, 1PH, 60Hz, .37KW, 220V, 1PH, 50Hz

### BNP BLAST GUN

#### AIR REQUIREMENTS FOR NOZZLES
